EDUCATION

Fordham University Lincoln Center

New York, NY

B.S. in Computer Science, Minor in Economics

Expected May 2026

- **Honors:** Dean's List, Loyola Scholarship, Carolyn Dursi Cuniffe Presidential Scholarship
- **Clubs and Involvements:** Commuter Association, Blockchain and FinTech, Cybersecurity Club

Relevant Coursework: Computer Science, Data Structures, Info and Web Programming, Database Management Systems, Computer Organization, Computer Algorithms, Discrete Structures, Data Communications and Networks, Calculus

RESEARCH AND ACADEMIC PROJECTS

StrategiMinds: A Dynamic Number Game

- Architected a flexible player class system adhering to object-oriented principles, streamlining code architecture, and promoting reuse, which reduced bug occurrences and facilitated smoother feature integration
- Developed and implemented a number guessing game in C++ featuring player configurations, interactive gameplay loops, and intuitive user interface, resulting in positive user feedback and enhanced engagement

AHU Dataset Analysis for Energy Efficiency

- Analyzed over 250K+ data points using Python and Pandas to identify temperature anomalies and correlations, proposing system optimizations based on fan power and valve position data to improve energy efficiency
- Automated the extraction and processing of large datasets, significantly reducing manual data handling and enabling faster identification of operational trends for enhanced decision-making

EXPERIENCE

Pharmacy Data & Operations Technician

New York, NY

Vera Pharmacy

January 2022 – Present

- Streamline data collection processes on an hourly, weekly, and monthly basis, facilitating detailed analysis, leading to 15% fewer stockouts and a 10% boost in monthly sales
- Extract and analyze PrimeRx data using SQL, identifying key trends in over 1000+ active patient profiles and prescriber behavior, implementing quality checks to ensure 100% compliance with regulatory standards
- Implemented robust quality control measures, including data validation techniques, to ensure accurate prescription entries and minimize errors, thereby streamlining future audits and maintaining compliance with industry standards

Logistics Intern

New York, NY

Bullion Exchanges

May 2023 – September 2023

- Implemented and maintained comprehensive company spreadsheets, tracking 1,000+ product listings and market trends, ensuring data accuracy through constant market research
- Prepared and processed data files using Excel, developing formulas and templates to ensure data accuracy and efficiency, while supporting company-wide projects across various teams
- Scraped 10+ online platforms for pricing data, optimizing product listings with competitive pricing and boosting revenue

Teaching Assistant

New York, NY

Stephen A. Halsey

January 2019 – February 2022

- Taught coding concepts, programming skills, and assisted students with projects using Scratch and Wix
- Conducted guided coding tutorials with 25+ students per session, resolving technical issues and enhancing project quality, leading to an improvement in overall learning and coding proficiency

LEADERSHIP AND OTHER ACTIVITIES

IT Coordinator

New York, NY

National Society of Leadership & Success

March 2024 – Present

- Engineered and maintained IT and AV systems for NSLS events, ensuring flawless execution and reducing technical downtime
- Managed email infrastructure, creating and overseeing 100+ .edu accounts to streamline communication and operations

Software Engineering Fellow

New York, NY

Headstarter AI

July 2024 – October 2024

- Spearheaded the Entrepreneur Track initiative for the group, generating 5 innovative tech concepts while collecting user feedback from over 150 participants
- Engineered a fully responsive personal website with HTML/CSS and Git, integrating Google Analytics to monitor performance metrics; achieved an average session duration of 3 minutes, indicating increased user interest

SKILLS

Computer/Technical: C/C++, SQL, CSS/HTML, Git/GitHub, JavaScript, Python, Pandas, Tableau, Wireshark, VS Code, Spyder, Network Security, Project Management, Market Research, Microsoft Office (Excel, Word, PowerPoint, Outlook, Teams)

Languages: English (Native), Russian (Native), Belarusian (Fluent), Ukrainian (Intermediate), Spanish (Intermediate)
